STAFF AUGMENTATION: THE GREAT MUST TO TACKLE BUSINESS UNCERTAINTY

In these turbulent times business leaders are agonizing over how to sail through fluctuations resulting from political, economic and environmental shocks. Historically, the main driver of staff outsourcing has been cost reduction; today it is ultra efficiency-to hire the best at lowest possible cost and have the flexibility to quickly increase or decrease staff levels with fast changing market conditions. In short these dangerously unpredictable external factors necessitate not only unprecedented efficiency but also swift maneuverability in staff levels. Solutions therefore is in staff augmentation with a smart partner like KST Alliances.

KST Alliances

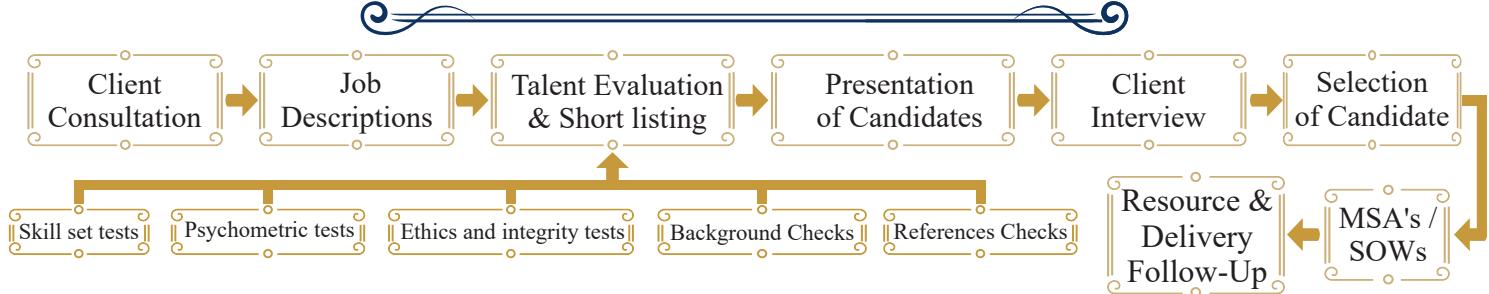

Why KST Alliances

- 360 degree solution to virtual employee management functions to help you start, scale, and run your remote team.
- Build offshore staff or a virtual team.
- Auxiliary team for operational or administrative support
- Scaling for new or existing projects
- Transition of an existing team
- Offshore staff size flexibility from one person (such as a virtual assistant) to a whole team.
- Eliminate the time and resource burden of active employee management, while also reducing the turnover rate.
- Transition an existing team, function or process.
- Implement your current or build new OKR or KPI to reach objectives.
- Training videos, training manuals and process/policies documentation.

Benefits of Remote Team Solutions

- Guaranteed substantial savings on payroll. Increased productivity and profitability. Offshore staffing helps you to minimize your overhead – in some cases, by as much as 80%!
- Reduction of employee turnover rate.
- Less time spent on transactional HR functions. We handle all HR.
- Complete transparency - No hidden fees
- Customizable team size or organizational structure; specializing in one or multiple positions and skill sets.
- Excellent work environment and cultural values attracting highly skilled and top quality work force that is motivated and highly productive.
- Experienced professionals to help build new or implement current KPI, ORK, bonus schemes, reports, training videos, training manuals, as well as process, procedures and policies documentation.
- A dedicated fluent English-speaking team working upto 48 hours per week per team member.
- Increase your productive time during USA business hours with the ability to start earlier and finish later.
- Full accountability with reports and evaluations.
- Our experts will help you select the right tools to monitor and manage your team remotely.
